“RISK FACTOR”

The following risk factor “*Risks in connection with the exposure of the Group to Eurozone sovereign debt*” shall replace the risk factor “*Risks in connection with the exposure of the Group to Eurozone sovereign debt*” set out in the section Risk Factor on pages 35 of the Base Prospectus:

Risks in connection with the exposure of the Group to Eurozone sovereign debt

In carrying out its activities, the Group holds substantial volumes of public-sector bonds, including bonds issued by European countries. The Group’s total exposure in this respect as at 30 June 2013 is set out in the tables A.1.2.a and A.1.2.b of Part E of the audited consolidated annual financial statements of Mediobanca as at and for the year ended 30 June 2013 incorporated by reference into this Base Prospectus. This could give rise to operational disruptions to the Group’s business.

Furthermore, Mediobanca is affected by disruptions and volatility in the global financial markets. In particular, Mediobanca’s credit ratings are potentially exposed to the risk of reductions in the sovereign credit rating of Italy. On the basis of the methodologies used by rating agencies, further downgrades of Italy’s credit rating may have a potential knock-on effect on the credit rating of Italian issuers such as Mediobanca and make it more likely that the credit rating of Notes issued under the Programme are downgraded.

Thus, any negative developments in the Group’s sovereign exposure could adversely affect its results of operations, business and financial condition.

Wholesale Banking

Mediobanca seeks to provide its corporate clients with the advisory services and financial services to help them grow and develop.

The wholesale banking division comprises three different units: *Corporate finance, Lending and Structure Finance, Capital Markets*.

Corporate finance

Mediobanca is the leader in Italy and has an increasingly significant role in financial advisory services at the European level through its branches in Paris, Frankfurt and Madrid. A client-based approach is adopted, backed by in depth knowledge of the financial issues and a consolidated track record in executing deals. The operating unit is organized into different industry teams covering individual industries in order to provide greater focus.

Corporate finance involves the following activities:

- defining strategic objectives for companies and identifying extraordinary financing transactions in order to help meet them;
- extraordinary financing transactions: mergers and acquisitions, joint ventures and partnerships, disposals and spinoffs;
- liability restructuring: earnings/financial analysis of companies/groups undergoing restructuring; working out financial rebalancing scenarios; negotiating with key creditors;
- corporate restructuring: LBOs, MBOs, spinoffs and tax-/inheritance-related issues;
- company valuations, on a standalone basis and for purposes of setting exchange ratios;
- relations with authorities: assistance in handling relations with market and regulatory authorities, principally CONSOB and Borsa Italiana.

Lending and structured finance

The Financing teams serve Mediobanca's Italian and international customers, through the branch offices located in Paris, Frankfurt, London and Madrid, to offer:

- advice in evaluating possible capital structures and financing solutions available from among a vast series of debt products, including considering possible implications in terms of rating;
- structuring and executing lending transactions;
- access to the international syndicated loans market;
- facility and security agent services for corporate and structured lending transactions.

The main products of the Lending and structured finance team are:

- **corporate lending:** (bilateral loans, club deals and syndicated loans): corporate loans aimed at supporting customers' financial requirements generated by investments or related to their companies' growth; the financial solutions offered are aimed primarily at medium-/large-sized firms operating on domestic and international markets, in industrial and service-based sectors;
- **leveraged finance:** (acquisition finance, loans for LBO/MBOs): financial support to corporate counterparties and institutional investors as part of leveraged transactions to acquire stakes in listed and unlisted companies; a wide range of lending transactions are developed, arranged, structured, underwritten and executed based on complex structures, and because of their size these are often syndicated on the international market;
- **structured finance:** (project finance, infrastructure finance, real estate finance): on the back of its solid track record in various sectors, customers are provided with advisory services covering the entire process of structuring deals to support investment and infrastructure or industrial projects, including offering strategies, selection of the most effective debt instruments, hedging strategies, financial modelling and structuring contracts; and
