Ernst & Young, with registered office in Milan, to which the engagement for the audit of Mediobanca's separate and consolidated financial statements as at 30 June 2024 and 30 June 2025 was entrusted, has issued the relevant reports without qualification or reservation.

WHAT ARE THE KEY RISKS THAT ARE SPECIFIC TO THE ISSUER?

The Issuer and its subsidiaries are subject to the following key risks:

- Starting from 15 September 2025, Mediobanca and its subsidiaries are subject to the management and coordination of Banca Monte dei Paschi di Siena ("BMPS"), falling within the scope of its group (the "MPS Group"). As part of the integration process, an extraordinary general meeting was held on 1 December 2025, in the context of which the shareholders of Mediobanca approved the alignment of the financial year-end date of Mediobanca and its subsidiaries, i.e. 30 June, with that of the MPS Group, i.e. 31 December, starting from the current financial year (i.e. 1 January 2026 - 31 December 2026). Accordingly, on 5 March 2026, Mediobanca's Board of Directors approved the draft of individual financial statements and the consolidated financial statements for the period of six months as at 31 December 2025. It should be noted that the data reported in the consolidated financial statements as at 31 December 2025 refer to a six-month period from 1 July 2025 (the closing date of the latest approved financial statements being 30 June 2025) to 31 December 2025, with the profit and loss data at 31 December 2025 compared with the figures for the six-month period ended 31 December 2024 and balance sheet figures at 31 December 2025 compared with those at 30 June 2025. Investors should take into account the inevitable discontinuity and limitations in the comparability of the consolidated and individual financial statements after the integration into the MPS Group with the historical consolidated and individual financial statements. Furthermore, on 17 February 2026, Mediobanca's Board of Directors acknowledged the decisions taken by the Board of Directors of BMPS and resolved to initiate actions to achieve the merger of Mediobanca into Banca Monte dei Paschi di Siena and subsequent delisting. Subsequently, the Boards of Directors of BMPS and Mediobanca, meeting on 10 March 2026, approved the merger plan (the "Merger Plan") for the incorporation of Mediobanca into BMPS (the "Merger"), also determining the exchange ratio at 2.450 BMPS shares, with no par value, for each outstanding Mediobanca ordinary share, also with no par value. The entire integration process involves numerous typical risks inherent to the process itself. Therefore, as at the date of the Base Prospectus and in light of the above, the process of integrating Mediobanca and its subsidiaries into the MPS Group as a consequence of the Merger could have a negative impact on their economic, equity and financial position.
- Following Mediobanca's entry into the MPS banking group, the rating agencies downgraded Mediobanca's rating, aligning it with that of MPS: in October 2025, Moody's lowered its long-term rating by two notches from Baa1 to Baa3, while the outlook was upgraded from stable to positive, based on the expectation that the MPS group would continue its financial improvement by integrating Mediobanca and refinancing maturing liabilities. In October 2025, Fitch downgraded Mediobanca's long-term issuer rating from BBB to BBB-, aligning it with that of MPS and assigning a stable outlook. Moody's and Fitch confirmed their rating assessments in December 2025 and February 2026, respectively. Finally, on 18 March 2026, S&P Global Ratings lowered the ratings on Mediobanca and its core subsidiary, MB Funding Lux S.A., to 'BBB' from 'BBB+'. A further downgrade by rating agencies may adversely affect Mediobanca's ability to access liquidity instruments on favourable terms and could lead to an increase in funding costs. Such circumstances may have negative repercussions on the earnings, capital and financial situation of the Issuer.
- The operations, earnings capacity and the stability of the sector of the Issuer may be influenced by the trends on global financial markets and the macroeconomic scenario (with particular reference to growth prospects) in Italy. With reference to financial markets, the solidity, resilience and growth prospects of the economies of the countries in which the Issuer operate in particular will be especially important. The macroeconomic scenario currently reflects significant areas of uncertainty in relation to: (a) the Russian-Ukrainian conflict; (b) the conflicts in the Middle East; (c) the launch of the United States and Israel's military intervention against Iran; (d) the structural reforms being undergone by China; and (e) the possible international political and economic impacts resulting from the decisions of the new US administration.
- The business activities of both Mediobanca and its subsidiaries and their earnings and financial solidity depend also on the credit standing of their respective clients and counterparties. Mediobanca is exposed to the risks traditionally associated with credit activity. Accordingly, breach by its customers of contracts entered into and their own obligations, or the possible failure to provide information or the provisions of incorrect information by them regarding their respective financial and credit situation, could impact negatively on the earnings, capital and/or financial situation of Mediobanca.
- With BMPS becoming the new parent company, the definition of objectives for Mediobanca and its subsidiaries now falls within the scope of the 2026-2030 Strategic Plan of the MPS Group (the "MPS Group Strategic Plan"). On 26 February 2026, the parent company BMPS approved the new MPS Group Strategic Plan, which also sets out the reference framework and sustainability and performance targets for the new consolidated perimeter. In light of these developments, significant implications arise for the 2025 Sustainability Reporting. The events occurring after the end of the reporting period result in the absence, for Mediobanca, of formally defined sustainability objectives for the period following the financial period ended on 31 December 2025. The change in ownership and governance structures and the approval of the Merger Plan make it impossible - as of the date of the Base Prospectus - to determine which of the MPS Group Strategic Plan objectives will eventually be pursued or modified. Furthermore, the Issuers' capability to implement the actions and to meet the relevant plan objectives depends on a number of circumstances, some of which are beyond the Issuers' control.
- The Issuer is subject to market risk, defined as the risk of the loss of value of the financial instruments, including sovereign debt securities, held by the Issuer as a result of movements in market variables (including, but not limited to, interest rates, stock market prices and/or exchange rates) or other factors that could trigger a deterioration in the capital solidity of the Issuer and/or Mediobanca's subsidiaries.

Restrictions on free transferability

Selling restrictions apply to offers, sales or transfers of the Notes under the applicable laws in various jurisdictions and, amongst others, the United States, the European Economic Area (including Ireland and Italy), the United Kingdom, Japan and Switzerland.

WHERE WILL THE SECURITIES BE TRADED?

Listing and Trading of Notes

Application has been made by the Issuer (or on its behalf) for the Notes to be admitted to trading on multilateral trading facility of EuroTLX which is not a regulated market for the purpose of Directive 2014/65/EU with effect from or around the Issue Date.

The Issuer reserves the right to make further applications for the Securities to be admitted to listing and/or trading on additional markets/trading venues.

WHAT ARE THE KEY RISKS THAT ARE SPECIFIC TO THE NOTES?

General

- A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio.

Risk related to the structure of a particular Issue of Notes

- In the event that the Issuer would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction, the Issuer may redeem all outstanding Notes in accordance with the Terms and Conditions of the Italian Law Notes.
- The Notes may be redeemed at the option of the Issuer, in whole, but not in part, upon the occurrence of a MREL Disqualification Event. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate.

Risks related to Notes generally

- The Issuer may, without the consent of Noteholders, correct (i) any manifest error in the Terms and Conditions of the Italian Law Dematerialised Notes and/or in the Final Terms; (ii) any error of a formal, minor or technical nature in the Terms and Conditions of the Italian Law Dematerialised Notes and/or in the Final Terms or (iii) any inconsistency in the Terms and Conditions of the Italian Law Dematerialised Notes and/or in the Final Terms between the Terms and Conditions of the Italian Law Dematerialised Notes and/or the Final Terms and any other documents prepared in connection with the issue and/or offer of a Series of Notes (provided such correction is not materially prejudicial to the holders of the relevant Series of Notes). In all cases described above, the Noteholders may be bound by any amendments, including those prejudicial to their interests, even if they had not provided their consent.

Risks related to the market

- Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes
- One or more independent credit rating agencies have assigned credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes.

- The Issuer will pay principal and interest on the Notes in the Relevant Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "Investor's Currency") other than the Relevant Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Relevant Currency or revaluation of the Investor's Currency or due to the official redenomination of the Relevant Currency, and/or Investor's Currency) and the risk that authorities with jurisdiction over Relevant Currency, and/or the Investor's Currency may impose or modify exchange controls.
- It is not possible to predict the price at which Notes will trade in the secondary market or whether such market will be liquid or illiquid. The Issuer may, but is not obliged to, list or admit Notes to trading on a stock exchange or market. The Issuer, or any of its Affiliates may, but is not obliged to, at any time purchase Notes at any price in the open market or by tender or private agreement.
- The Issuer shall use all reasonable endeavours to maintain listing on the multilateral trading facility EuroTLX, provided that if it becomes impracticable or unduly burdensome or unduly onerous to maintain such listing, then the Issuer may apply to de-list the relevant Notes, although in this case it will use all reasonable endeavours to obtain and maintain (as soon as reasonably practicable after the relevant de-listing) an alternative equivalent admission to listing, trading and/or quotation by a stock exchange, market or quotation system within or outside the European Union, as it may decide. If such an alternative admission is not available or is, in the opinion of the relevant Issuer, impracticable or unduly burdensome, an alternative admission will not be obtained and the liquidity of the secondary market of the Notes could be affected.
